HOW IT WORKS

DEPULS +

Determines the state of health by heart rhythm. The strength and frequency of the pulse, number of beats per minute accurately indicate «weak» places in the body and the psycho-emotional state of a person.

DePuls+ device evaluates the condition of systems and organs, stress index, biological age, autonomic balance, energy potential, the state of musculoskeletal system.

It is used to test the psychoemotional state, i.e. aura power, degree of openness of chakras, activity of twelve meridians, the state of organs and systems in accordance with the Wu Xing theory.

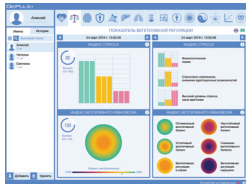

In accordance with the test results DePuls+ offers the most suitable health improvement plan that includes application of DeVita complexes. It is possible to create multiple profiles and generate state changes dynamics.
